

# COMMIT to the 8-Bit!

*Commit to the 8-Bit!* uses the principles of improv and play to celebrate joyful collaboration. Adventurers will tell stories and solve problems while learning foundational values of community.

In each episode, a cast of adventuring kid players and grown-up improvisers set out to solve a giant problem! Along the way, they learn that the more they celebrate and support each other's ideas and the more imaginative their solutions, the more they succeed.

The show embodies a communal, collaborative spirit, and models the crucial skills of trying new ideas, listening to other perspectives, and valuing our fellow humans.
